SHY LIGHT

my brother always said I'm a dreamer
you better watch out where this life will lead

he always said she's a keeper
keeper

she'll stay by your side when the rest will leave
well I'm looking on my left side

I'm looking on my right

she's nowhere to be seen now

when I close my eyes at night

dreaming,

surely you will find me by the

shore

I'm singing so blindly, can you hear me, can you find me?
if you find me, wanna tell you I love you so

I wanna tell you that love comes and goes

that it comes and goes
it comes and goes

I hear the footsteps in water

I feel the breeze

Incomplete Kisses

Those incomplete kisses
Were weighing you down with every step
In this house we're sinking
But we're far too numb to really care
The tv keeps glitching
The lights dim down and portals appear
And somehow you step out
To say you're not by yourself now.

Those incomplete kisses
Those incomplete kisses
Wait too long you'll miss it
Before long you're missing
Don't let your heart hide your story
Don't let your mind hide your story
Cos if you deny others inside
It gets harder to move along
Moving on

Flying high above all your memories
I have a birds-eye view
A child stood at the cemetery
He looks just like you
Orange, yellow, purple, blue skies
A painting so true
And i hear those cries
Don't you leave me here
Don't you leave me here

Those incomplete kisses
Those incomplete
Wait too long you'll miss it
Wait too long
Those incomplete kisses
Those incomplete

Those incomplete kisses
Those incomplete kisses
Wait too long you'll miss it
Before long you're missing

Don't let your heart hide your story
Don't let your mind hide your story

Cos if you deny others inside
It gets harder to move along
Moving on

Still heavy breathing

when you get close I get distant

i'll drive away to a place surreal
and tell me how that feels

~~magnetic light~~

there's no one here for miles

it's just me in the burning sun
~~it's just me~~

i'm on this road now
i'm so alone now, swerving out of control now.

I accelerate and I accelerate

Kora Sings

With family I
I don't have the time
The time to be questioning life

A mother needs her sons
Oh she needs them near

We don't have to talk
I just need you here

But if you go away please don't disappear
The heat is making light of a heavy year

I really hope there's rainfall
My hands together looking at the stars

I really hope there's angels
Because the world is turning, turning way too fast
She says she can't turn tables
Well I say you don't how wrong you are

Or just how strong you are
You don't know how strong you are

A pillow on your face soaking up those tears
Who's anyone to say you should have no fear?
A mouth full of smoke really made things clear

You've been with me since the cradle
You've been with me you're my angel

Please don't you disappear

You're free
You're free
You're free enough to find your feet
You're also free enough to hide from me

And I seek
I seek

I'm seeking something I can't see

I may be reading in too deep

And maybe this is all a dream
